### 3. Continued -

Forced me on multiple medications that I did not need. They diagnosed me wrong to hold me in there facility for a long period of time. 02/20/2024 to 10/03/2024 then they force me to go to Merakey Extended Acute Care facility. Dr. Ebong and Kayla Linsey case worker denied me to go to any shelter besides York. Dr. Ebong force me to take over five different mood stable meds and if I refuse to take them oral she ordered the nursing staff to IM inject me which they was restraining me forcing meds inside of my body. They stated they was following the Mental Health care act. They scratch my left hand all up for the rest of my life and they black and blued my right lower extremity which I showed the CEO Ryan of Lancaster Behavioral Health.

Myan ignored everything and the abuse continued. I have about 50 or more complaints filed out. They denied everything and left me sit in the abuse. The court hearings are wrong. I did not get to say a word in my defense at all. They have you in a room and the Doctor and Judge, Nurse attorney representing you on a screen and the attorney never come in to the hospital nor called me until the court hearing did I see this man. They all communicate about the case and you do not get to talk they just continued to order me more time there and what half of what Dr. Elong was stating about me was false. Everytime I turn around she just kept ordering a new medication for me to be on. I told them NO, Stop forcing me. If I get upset they force me to take meds. I was suffering badly there.

I continued to ask them to drop my level down to a 201 so I may sign myself out. I was homeless is why police took me to York hospital on 02/19/24 the next morning the nursing staff came into my room at York hospital and stated get your things together Ems is here for you. York hospital never told me I was 302 by my daughter but my daughter was not at her home with me to 302 me. There was no psycho behavior at all. My daughter just stated I could not stay there at her house any longer I am the one who called 911 for shelter. There was no need at all for a 302 commit. They entered and stated false information about me. They never told me they was taking me to Lancaster Behavioral Health Hospital until they forced me on the stretcher. I have notified my insurance company upmc and filed complaints with the I am still awaiting to hear back from them I had two hearing with upmc already.

I told upmc the truth. They stated that they could of done better. I had ask them to pay for my hotel stay please do not rape me of my freedom like this I have done nothing wrong they illegally 302 me and they was abusing the hell out of me in Lancaster Behavioral Health Hospital and they are trying to keep me high on psych drugs that effecting my body mind. I was telling them about the horrible side affects they just entered another medication to help with the side effects. My rights was denied in this hospital and I am a mother of 3 children to minor son fighting to get home to them and they did not care they held me in there 8 months. The cyber crimes followed me there so I suffered badly internal.
